

A customer came to use our Aqua-Chi Machine. She had recently retired because of severe arthritis in her hands. After one treatment she was able to open and close both hands. She commented her pain was 80% better. After five treatments, she had no more pain and 100% mobility back. She then asked her husband to try the Aqua-Chi treatments. He had asthma and used oxygen at night and inhalers during the day. After two treatments he stopped using the oxygen at night and after five treatments was able to quit using inhalers. He saw a remarkable change in his ability to breathe. - **Glen Ohmert, health food store owner**

"The Aqua-Chi machine is working for me! I am continuing to respond well to treatments, while only time will tell whether it will cure my Scleroderma, it has certainly provided more relief than anything else I've tried, and healing is very apparent. I would not hesitate in recommending it to other sufferers of this affliction."

- **Wilbert Bentz**

"I have experienced kidney failure and poor kidney function throughout my life. I obtained an Aqua-Chi machine and had amazing results! Since using the Aqua-Chi machine I have not had kidney failure. I have been a nurse for 18 years and tried to stay current on whatever could aid my condition. It was this machine that led to my breakthrough for a healthier, happier existence. I believe that electromagnetic field therapies such as the Aqua-Chi are way ahead of their time and that this technology helps many disorders/diseases. I highly recommend that folks try this out for themselves."

- **Sincerely, Lori Niell**

"Prior to my purchasing the Aqua-Chi Machine I had not had a menstrual cycle in three months. I'm only 35 so I knew it couldn't be pre-menopause. After 5 treatments my menstrual cycle returned to normal. I also noticed less cramping and a shorter cycle, also had increased energy, and better mental attitude."

- **Sincerely, K. Foster**

"I was suffering from candida overgrowth which was localized in my bladder and uterus. This was the cause of my low energy. After receiving a 35 minute Aqua-Chi footbath, I felt much stronger. The therapist and I were shocked to find that the candida seemed to have cleared out of my bladder and uterus. She stated that she had never seen anyone's energy field shift so dramatically in such a short period of time! Since using the Aqua-Chi Machine on a regular basis, I have noticed that I have more energy and stamina, and that I sleep more soundly. I also have to add that the technical support for the machine is great! The makers really stand behind their product. I'd recommend that everyone should have an Aqua-Chi Machine in his or her home."

- **Larisa Mc Clung**

"I had heard that the Aqua-Chi Machine helped relieve muscular tension from rigorous workouts. I purchased a machine and found this to be true. I have also noticed the texture of my skin at the age of 51 seemed softer and my wrinkles less prominent. My menopausal symptoms are greatly reduced and I am sleeping through the night."

CAUTION: Pregnant women and/or people taking medications should consult with a health care professional and/or their medical doctor trained in its use to monitor results and/or prescribe a protocol before using this device. It is not recommended for people with pacemakers or organ transplants as not enough research has been done on these conditions.

DISCLAIMER: None of this information and/or the Aqua-Chi machine is intended to cure, treat, prevent or diagnose disease of any kind. None of these statements, research or the Aqua-Chi have been evaluated by the FDA.

WHAT IS AN AQUA-CHI?

It's a noninvasive, water based energy system designed to increase energy levels in living things.

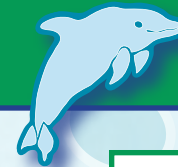

WATER ... No Type of Life Could Exist Without it

The Aqua-Chi Model 5400 FB Hydro-stimulation Spa is a state of the art, bio-energy charger. The system is designed to operate with water because water is the basis of all biological function. There are many different types of cells in the body and they all have a number of things in common. They all need water for hydration AND energy to perform their designated tasks. With the depletion of either water OR energy, the cells are deprived and poor health can result.

The system works through the medium of water by making available **EXTRA ENERGY** that the living cell can utilize. There are many water sources around the world that are reported as having invigorating effects on the body when bathed in. These waters are naturally charged and give up some of their charge to the body on contact. This is the fundamental process utilized by the Aqua Chi; the transference of energy through water.

Using the Aqua-chi is very easy. Complete, clear, and simple instructions explain how to set up the system. Then when your ready, simply place your feet in the warm footbath, or indulge in the luxury of a full body bath: and relax while Aqua-Chi does its work. It doesn't take a lot of your time either, just 20 minutes every second or third day. As long as you have water and access to a power outlet you can use it anywhere, making your Aqua-Chi machine completely portable.

Aqua-Chi will make a world of difference in your health, in your energy level, in your LIFE!

BENEFITS ... for your Body, Health, Energy Level and Life

Aqua Chi has many benefits for your body. It can make a world of difference in your health, in your energy level and in your life. Remember that each of the billions of cells in your body is a living thing, requiring its own energy to maintain life. And that when you look at yourself in the mirror, in a way, you're looking at a great colony of living creatures, working 24 hours a day to keep you healthy. So keeping them healthy and energized is not only smart, it's vital. And one of the most important things you can do toward that end is to intervene in that inevitable process of cell energy depletion. There's an old saying that goes, "An ounce of prevention is worth a pound of cure." And, in the words of the creator and driving force behind Aqua Chi, "Early intervention can actually be prevention."

The reason why people don't heal is because they run out of energy!
